

TECHNICAL DATA SHEET

Version: 5.0 / 12-06-2024
Exclusive use: United States of America

Larusoil® is an extract of seabird guano that is collected off the coast of Baja California. It is for use in irrigation system. It is a high quality organic extract. Its main function is to help the soil to have the essential nutrients that plants need for optimum growth.

1. GENERAL CHARACTERISTICS / GUARANTEED ANALYSIS

Organic fertilizer

Derived from seabird guano.

GUARANTEED ANALYSIS	
Total Nitrogen (N) _____	0.3700 %
0.3100 % Water Soluble Organic Nitrogen	
0.0600 % Water Insoluble Organic Nitrogen	
Available Phosphate (P ₂ O ₅) _____	0.4000 %
Soluble Potash (K ₂ O) _____	2.3700 %

Active ingredients

Seabird guano	20 %
Auxiliary ingredients forextraction and stabilization	80 %
TOTAL	100 %

- Appearance: liquid
- Color: dark brown
- Odor: characteristic of guano
- Solubility: 100% water soluble
- Density: 1.037 ± 0.02 g/cm³
- pH: 4.5 - 6

2. RECOMMENDED USES AND SAFE HANDLING

The recommended doses in this document are based on our experience and on the general needs of the crop. It is suggested that a specific application schedule be drawn up with the support of specialized technical staff.

Shake well the container before opening the product and pour it in water according to the recommended quantities. Before applying, mix until obtaining a homogeneous solution. It is suggested to carry out tests prior to the mixture and/or the application of the product in the field.

CROPS	DOSE	APPLICATION
Vegetables: Bell pepper, tomato, cucumber, grand cherry tomato, eggplant, pepper, squash, pumpkin, zucchini.	1 – 40 Gal/Acre	Soil 7 – 10 days
Leafy vegetables: Head and leaf lettuce, spinach, celery.		
Stone fruit: Nectarine, apricot, peach, plum, almond, cherry, grape.		
Citrus: Orange, lemon, tangerine.		
Berries: Strawberry, caneberry, blueberry, raspberry.		
Cole crops: Broccoli, cauliflower, brussel sprout.		
Pome fruit: Apple, pear.		
Roots and tubers: Potato, garlic, onion, shallot, carrot.		
Subtropical: Avocado, guava, kiwi.		

3. PACKAGING

Plastic containers with the following capacities: 5, 50 and 250 gallons.

4. EXPIRATION DATE AND STORAGE

The product has a shelf life of two years. Once the container is opened, the product must be used. Keep the container hermetically sealed in a fresh, dry, well-ventilated place. Keep away from direct sunlight. Do not store alongside food products. Keep out of reach of children.

5. ADDITIONAL INFORMATION

ALGAS Y EXTRACTOS DEL PACÍFICO NORTE AEP S.A. de C.V. guarantees the composition and net content of the product as long as the security seals of the containers have not been tampered with or broken. Since storage, transportation, handling, application, and dosage of the product are beyond our control, no liability is accepted for the effects and/or results.
